Hello! I'm Joseph. I'm a Systems Engineering student at the Autonomous University of Bucaramanga and a passionate web developer with experience in technologies such as Firebase, Tailwind, Next.js, JavaScript, React, Kotlin, and PHP. 🚀 I'm proficient in using tools like Visual Studio, Android Studio, and Trae, and I always enjoy learning new tools to create efficient and attractive web and mobile applications. 🚀 I'm always looking for new challenges and opportunities to improve my skills and contribute to innovative projects. 🌟

PROFESSIONAL EXPERIENCE

Webnova

Founder & Lead Developer

Bucaramanga, Colombia

April 2024–Present

- I have led the development of various innovative applications, including platforms for selling music courses, apps focused on disease monitoring and prevention, a POS system for restaurants and bars, and an application aimed at improving reading comprehension in Colombia.
- Additionally, I have incorporated data analysis tools such as Google Analytics and Firebase to assess the impact of my applications and continuously enhance the user experience. I have also developed dashboards to monitor performance, enabling data-driven decision-making.
- To ensure project quality and efficiency, I implemented agile methodologies that promote collaboration and constant communication within the team. I integrated CI/CD practices, which helped reduce deployment times and improve software delivery efficiency.
- My focus is on creating technology solutions that address real-world needs and contribute to social development. I am always seeking new opportunities to innovate, learn new tools, and collaborate on projects that make a positive impact on the community.
